

Marine Teissedre

Forest Technician · Open to relocate · Trilingual

marine.teissedre24@gmail.com · +1 (438) 530-6054 · Williams Lake, BC · Open to relocate · English · French · Spanish

SUMMARY

Trilingual forest technician looking for the next field season — based in BC, open to the right crew. Field-first, with experience across silviculture, wildfire suppression, surveying, and forest health data collection.

EXPERIENCE

Kintera (formerly DWB-Chartwell)

Forest Technician

- Field technician work on active forestry files: surveying, plot work, and forest health data collection.
- Turned raw field data into clean deliverables the office could trust.
- Long days in the bush, comfortable navigating off trail and reading the stand.

Pro-tech Forestry Consulting

Forest Technician

- Consulting-side technician work: running plots, collecting forest health data, and supporting field crews.
- Comfortable on a mixed crew and used to switching between client files within a single season.
- Reliable on the data side: tidy notes, accurate GPS, clean handover.

RHINO

Wildland Firefighter · Silviculture

- Initial attack and sustained action on wildland fires through the BC fire season (S-100 and S-185 certified).
- Off-fire rotations on silviculture blocks: brushing, surveying, and crew support.
- Used to long shifts, remote camps, and the mental discipline of a fire crew.

RHINO Reforestation

Silviculture · Surveying

- Front-line silviculture: planting, brushing, and stand tending on reforestation blocks.
- Survey support: stocking checks, plot work, and field data collection feeding into block reports.
- First real exposure to a working crew and the standards a contract holds you to.

CERTIFICATIONS

S-100 Fire Suppression

S-185 Fire Entrapment Avoidance
